

FROM MURPHY TO MANTEO.

SOME THINGS THAT ARE HAPPENING IN NORTH CAROLINA.

What Has Happened in the Good Old State Since the Chronicle Last Greeted its Readers.

A tremendous hail storm passed over Winston Wednesday evening.

It is believed that Frank P. Broadway, the slayer of Lee Graven, in Davidson county, has taken refuge in Tennessee.

Robert Peacock who lives near Guilford Battle Ground, believes he has discovered a vein of iron ore on his plantation.—Greensboro North State.

Travel and traffic on the High Point, Randleman and Asheboro railroad is so heavy of late that it is impossible to do the work with one train a day.—Lexington Ledger.

In A. Braswell's flock of sheep there are forty nine ewes. A few mornings since he found in his pasture forty-nine lambs. Each ewe had given birth the night previous to a lamb.—Tarboro Southern.

It has been decided by the owners to sell off some of the lots belonging to the Greensboro Female College property, and to fit up the college with water, heating apparatus, steam laundry, electric lights, &c.

Our Cameron friends, we learn, are trying to establish a cotton factory. It will require \$12,000, about \$3,000 of which has been pledged. Maj. Jno. W. Scott and Muse Bros. are the prime movers.—Carthage Blade.

At a meeting of the military company held last Monday night, the following officers were elected: Captain, Reid Russell; First Lieutenant, M. L. Hinson; Second Lieutenant, George Warburton; Rockingham Rocket.

The Mockersville Times says little Taylor Bailey, a four-year-old son of Bryant Bailey, who lives near Elba, Davie county, was kicked on the head by a horse, fracturing his skull. Hopes are entertained of the child's recovery.

The weavers at the cotton mills made a strike for higher wages Tuesday. They were idle all day, but the proprietors refused to raise their wages and they went back in their places Wednesday morning.—Lexington Dispatch.

Greensboro is to have a telephone exchange and a fire alarm. Also a free letter delivery system, and the houses are to be numbered. The proposition to change the names of Elm and Market streets is being discussed.—North State.

Mr. A. H. McNeill has discovered on a tract of his land, near Carter's Mills, in this county, a rich deposit of manganese, said to be in paying quantities. It is a very valuable find. The ore is worth \$75 per ton.—Carthage Blade.

The Tarbell Lumber Co., of Southern Pines, was incorporated in the office of the Clerk of the Superior Court of Moore county, this week, with an authorized capital of \$50,000.00, 75 per cent of which has been paid up.—Carthage Blade.

Capt. Everett, the president, informs us that about five thousand dollars worth of new machinery has recently been put in at Great Falls factory. The machinery consists of a new slasher, looms, &c., which will increase the output, and improve the quality of the goods.—Rockingham Rocket.

The patent drop curtain invented by John L. Baker, to which reference was made in this paper several weeks ago, will be the means of securing a fortune for that gentleman. He has been offered \$25,000 by one party for the right of twenty-three States, and \$10,000 by another for seven States.—Greensboro North State.

Another runaway match. Mr. James Loftin, assistant ferryman at Sowers' ferry, living in Rowan county, came over to Davidson Sunday morning and took away Miss Robena, daughter of Mr. Alexander Grubb, crossed the river about a mile below the ferry and went into Rowan where they were married.—Lexington Dispatch.

Prof. J. L. Lindlow informs us that the track laying on the street railway will begin the latter part of this week. The rails have been distributed on Main street from the academy square to the court house, and from the court house on Fourth street to the graded school. The cross ties are being placed along the route as rapidly as possible.—Twin City Daily.

During the storm last Friday, Mr. Joe Edwards and his son, who lived across the Yadkin, in Davidson county, were hauling wood from a new ground. The wind blew down a tree that fell on both father and son. The boy was killed and the father's injuries were of such a character that his recovery was considered very doubtful.—Albemarle Observer.

We notice going the rounds of the State press an item stating that not a pound of ice has been gathered in this State during the past season. Whoever started such a report is certainly not well posted in such matters. Davidson county is never caught napping. Considerable ice has been housed in this community, but nothing like what will be needed for home consumption.—Lexington Ledger.

Our townsman Will Cantwell has opened a school of stenography and telegraphy, two very important and essential branches of business in the mercantile world. Mr. Cantwell is an experienced operator and having ripe experience, as he has fitted for usefulness several young men, who are now filling responsible positions and receiving remunerative compensation.

D. M. Morrison, Esq., was over in Montgomery county last week, and he says that the mining fever is pretty high. Land anywhere contiguous to the recently discovered mines has advanced rapidly in price, and a good deal of real estate changes hands every week. He told us of a watch and chain owned by Tebe Saunders which he had made from gold taken from his mine. Tebe claims to have gotten out the gold from which the watch and chain are made in less than one minute. Mr. Morrison thinks the result of the approaching railroad in Montgomery very doubtful, as some prominent and influential citizens are strenuously opposed to it. We hope, however, that opponents of the road will suffer defeat, for the good old county of Montgomery has already been in the back woods too long.—Rockingham Rocket.

Please Take Notice!

THAT THE TIME FOR PLANTING MAGNOLIAS

is here. I have a lot from 6 inches to 5 feet, which I will sell from 10 to 50 cents, or \$3.00 to \$40.00 per hundred. Lots for side walk at \$5.00 a piece, planted and guaranteed in North State. Elsewhere I charge for expense extra, or \$3.00 dug up and no responsibility. I also have EVERGREENS too numerous to mention. Persons needing these Plants should come early and make choice.

J. M. BONNOT,
